

# **MUSTANG**

## ***Floor Machine***

For a durable, powerful floor machine in an economical package, try the Mustang. Precision balanced for easy operation and maneuverability, this machine scrubs, strips, spray buffs, polishes, shampoos — even bonnet cleans — at 175 RPM.

The Mustang, which comes in either 1 HP or 1.5 HP 66-frame motors, features a straight line planetary gear system that provides efficient transfer of power from the motor to the brush. This setup assures smooth, quiet, trouble-free operation throughout a job.

Available in 17 and 20-inch widths, the Mustang is ideal for schools, office buildings and other facilities where appearances need to be kept up while holding equipment costs down.

A mechanical lock-out mechanism on the handle must be released before the switch lever on the Mustang will activate. This special safety feature prevents unauthorized operation if the machine is left unattended.

The Mustang features a mechanical lock-out on the handle which must be released before the switch lever can be activated. This important safety feature prevents unauthorized operation if the machine is left unattended.

The Mustang can be used with a bonnet (like the one pictured above) for routine carpet maintenance.
