

A FAMILY COMPANY SINCE 1969

FORMULA 828 SOLVENT-FREE DEGREASER

Sanifil Formula 828 is an extremely effective floor degreaser and cleaner. It's a unique blend of saponifying agents (agents that essentially turn fats/oils into soap) designed to instantly emulsify grease and oily soil.

Formula 828 attacks grease and soils upon contact which makes this solution the ideal product for use with Bortek's automatic floor scrubbers, pressure washers, and the traditional mop and bucket or even spray applications. This product will not fog when agitated, either!

Keep your surfaces clean with ease using **Sanifil Formula 828**. Over time, using **Formula 828** on concrete flooring will also ensure it remains bright and beautiful, furthering the attractiveness and professionalism of your facility. This product is available for purchase in 1 gallon bottles, 5 gallon pails, 55 gallon drums, and 275 gallon totes-- whichever is more convenient for you!
