XR

Industrial Rider Scrubber for Quality Results

34-46 INCH WORKING
WIDTHS AVAILABLE

Made in the USA 

AVAILABLE IN BOTH
DISK & CYLINDRICAL

Machine Control Panel uses off-the-shelf toggle and marine duty switches and features universal icons which simplifies training.

Squeegee Adjustments made simple with quick change squeegee latch allows tool-less maintenance and 4-sided squeegee blade.

Fill System features a recessed trough with removeable stainless screen for easy bucket filling as well as a hose lock notch.

Oversized Vacuum Screen Shut-Off quickly arrests overfill issues to protect the Vacuum Motor.

High Performance motors and down pressure provides an unmatched standard of cleaning.

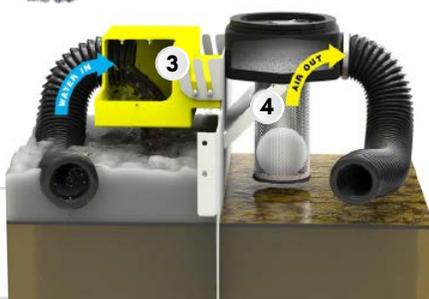

Featuring five deck sizes and two specialized cleaning systems, the Factory Cat XR Series Scrubbers give you the ability to effectively clean virtually any environment, from distribution centers, factories to airport hangars. Its compact size gives the XR the ability to make tight turns easily in semi-trailers and other narrow spaces.

With rugged steel construction and high productivity, the XR can tackle any cleaning challenge you put in its path. The gimbaled brush drive of the Disk model delivers 45% more scrubbing power than competitive models. Cylindrical models sweep and scrub in a single pass, thereby eliminating the need to vacuum before scrubbing. For exceptional water control, the scrub decks have adjustable wipers and curtains.
