

PowerBoss

The Power of Clean

**INDOOR OUTDOOR HEAVY DUTY SWEEPER SCRUBBER –
MULTI PURPOSE MACHINE**

HYDRAULIC DUMPING OF TRASH – ELIMINATES MANUAL REMOVAL

**THREE DISC SCRUBBING BRUSHES PROVIDING
INDUSTRIAL SCRUBBING POWER**

**HYDRAULIC VACUUM SYSTEM LEAVES THE FLOOR SAFE & DRY
& CONTROLS DUST WHILE SWEEPING**

COMMANDER T82

INDUSTRIAL SWEEPER/SCRUBBER

COMMANDER T82 | PRODUCT FEATURES

The Commander T82 is a unitized all-steel construction machine that is made to withstand use in tough, industrial environments. This machine is a total sweeper/scrubber that allows the operator the ability to remove heavy debris while aggressively scrubbing. It features oversized cleanout ports with simple screw-on caps that facilitate recovery tank draining and sludge removal. The quick-change disc brushes help remove years of caked, oily build-up. The scrub head floats for constant floor contact. The accessible engine allows easy maintenance and service repair. The Commander T82 features a large 68 gallon solution tank. The power steering is through the rear drive tire. The machine has a heavy-duty four cylinder engine and air cleaner. It also features head, tail and instrument lights. The Commander T82 uses industrial smooth-ride tires for traction and reliability and has an automatic solution fill with full tank shutoff valve. The operator controls all functions of sweeping and scrubbing while seated in a delux seat with arm rest. The RTR (Rotary Trash Relocator) The only sweeper scrubber in the industry that offers compaction of hopper debris for maximum capacity up to 1000 lbs.

Sweep & Scrub At The Same Time Or Use Each Function Independently

Powerful Hydraulic Sweeping & Scrubbing Systems Clean The Dirtiest Floors. Straight Hydraulic Controls, Reliable Systems

Large Tank Capacities Allow For Longer Runtime. The Oversized Cleanout Ports Make It Easy For Cleanup

Parker Guaranteed Performance Program, 36 Month No Hydraulic Leak Guarantee. 24 Month Hose Guarantee

COMMANDER T82 TECHNICAL DATA

| | | | |
|---------------------------------|---|-----------------------|----------------------|
| Theoretical Productivity | 67,000 ft ² /hr • 6,225 m ² /hr | Weight | 3,600 lbs • 1,633 kg |
| Dimensions (LxWxH) | 119" x 54.12" x 57" 302 x 137 x 145 cm | Minimum U-Turn | 120" • 305 cm |

SWEEPING SYSTEM

| | |
|--------------------------------------|---|
| Sweep Path | 56" w/ 26" side broom 142 cm w/ 66 cm side broom |
| Main Broom | 42" • 107 cm |
| Side Broom | 26" • 66 cm |
| Hopper Type | Hydraulic High Dump |
| Hopper Volume | 14 cu ft • 396 liters |
| Hopper Capacity | 1,000 lbs • 454 kg |
| Dust Control | 100 sq ft • 9 sq m |
| Hydraulic High Dump | 60" • 152 cm |
| RTR (Rotary Trash Relocation) | Compacting Hopper Trash |

SCRUBBING SYSTEM

| | |
|-------------------------------|---|
| Scrub Brushes | (3) 14" • 36 cm |
| Scrub Path | 42" • 107 cm |
| Scrub Deck Pressure | 400 lb, optional 600 lbs 181 kg, optional 272 kg |
| Brush Speed | 250 RPM |
| Solution/Recovery Tank | Polyethylene |
| Solution Capacity | 68 gallon • 257 liters |
| Recovery Capacity | 65 gallon • 246 liters |
| Rear Squeegee Type | Parabolic |
| Squeegee Width | 48" • 122 cm |
