

A FAMILY COMPANY SINCE 1969

FORMULA 528

SOLVENT-FREE

INK, GREASE, & GRIME REMOVER

Sanifil Formula 528 is truly the most versatile cleaner in anyone's line. A water-based cleaner and degreaser, formulated to remove grease, oil, carbon or any other industrial soil from concrete, machinery, engines, floors, walls, etc. Low foaming for use in automatic scrubbers. Extremely concentrated for dilutions of up to 1 ounce per gallon of water. Non-toxic, non-corrosive, non-flammable and biodegradable, so as to be safe to use on all surfaces not harmed by water. Cleans faster, easier, and more economically than any product on the market today.

Sanifil® Formula 528 DIRECTIONS:

Dilute with water depending on the job requirement. Apply by mop, sprayer, sponge or automatic scrubber. Apply to surface to be cleaned and allow to stand for several minutes. For heavier soil, agitate briskly with a brush or aggressive pad. For normal soil, allow the product to do the work. Wipe clean with a moist rag, sponge or pick up with wet vac or mop. Where applicable, rinse thoroughly with water. Avoid contact with windows or other glass surfaces. Test a small, out of sight section before proceeding.

SUPPLIES

FOR USE WITH

• Floor Scrubbers

• Manual Cleaning

• Pressure Washers

• Mop and Bucket

BENEFITS

- Cleans and emulifies grease and oily soils
- Whitens Concrete over time
- Perfect for restaurants, food plants, and anywhere with concrete flooring.
- Maximize safety for your employees and customers alike. Keep your floors slip-free

FLOORS, WALLS, & GENERAL DILUTIONS:

Light Soil: 1 to 30 (4 oz./gal.)

Medium Soil: 1 to 10 (13 oz./gal.)

Heavy Soil: 1 to 5 (26 oz./gal.)

KITCHENS, ENGINES, MACHINERY, CONCRETE, SWIMMING POOLS, SHOWERS, WHITE SIDE WALL TIRES: 1 to 10 (13 oz./gal.)

PAINTED SURFACES: Never less than 1 to 10 (13 oz./gal.)

These directions are flexible rather than specific. In many cases a more dilute solution can be used, while for extreme conditions a less dilute solution may be used.

ALWAYS TEST ON A SMALL SECTION OF A SURFACE, FIRST.
