

FIRST IN POWER CLEANING EQUIPMENT®

If dust is your problem, the ride-on Dulevo 120 sweeper is more than a simple solution, it is an extraordinary opportunity. Designed to work in any environment, the 120 is a one of a kind machine: Solid, reliable, and noiseless. Capable of collecting both the finest dust and gravel, this sweeper is ideal for all applications in the heavy industry, and is also suited for the use in public environments as well as in loading/unloading areas such as warehouses, quays, parking lots, and anywhere there is need of a machine capable of carrying out heavy duties in an agile and maneuverable manner. Three different versions (electric, gasoline, and diesel) allow you to choose the most suited machine for each work environment.

#### The direct collection system

The collection is carried out through the side brushes, which send the debris toward the centre of the machine, where the central cylindrical brush hurls it at high speed directly into the container. The dust is sucked and kept in the container thanks to the depression created by a high capacity and prevalence suction fan. The fabric filtering system completes the sweeping cycle, guaranteeing the introduction in the environment of only clean air.

#### All you can ask from a sweeper

The ride-on Dulevo 120 has all the characteristics of the best industrial machines: A wide container, great power, excellent sweeping performance and a really efficient suction system.

#### Dust control not only in city

The Dulevo 120 can be equipped with the GORE® filtering system, which can filter up to 90% of PM2.5, freeing the environment where we live not only from dirt and dust, but also from the dangerous particulates. The special filtering GORE® materials foster a considerable increase of performance, guaranteeing a higher duration, easy cleaning, reduced maintenance, an increase in the air capacity equal to 35%. All this for a better sweeping quality.

GORE dust filters installed in the industrial sweeper have 5 YEARS warranty.

### The 120 in synthesis

- Heavy duty steel frame;
- Water-cooled motors suited for hot climates and long working shifts;
- Standard power steering, for a more comfortable and pleasant driving;
- Compaction system inside the caisson designed to increase the collection capacity;
- No electronics;
- Standard bulky refuse port;
- Replacement of the central brush without tools.

TECHNICAL DATA		120 EH	120 BK	120 DK
Sweeping width				
- With central brush	mm	1200		
- With side brushes	mm	1800		
- With third brush	mm	2050		
Waste container capacity	l	450		
Dumping height	mm	1500		
Cleaning performance	m²/h	16400	20500	
Maximum speed	Km/h	8	10	
PM 10 filtration	%	99		
Engine Brand		AMRE	KUBOTA	
Fuel		BATTERY 48V	PETROL/LPG	DIESEL
Length	mm	2500		
Width	mm	1560		
Height	mm	1540		

Bortek is a locally owned, family company and has been for over 50 years. We've done so with the proud tradition of putting our customers first. Our purpose is to consistently provide the best possible solutions and support to solve our customers' facilities maintenance, cleaning, and sanitation problems.

Each and every one of our 16,000 customers is special with unique cleaning problems. At Bortek, our level of experience remains unmatched and allows us to create solutions that are tailored to your specific needs.
