

Ambassador[®]
Self-Contained Carpet Extractors

Key Features

- Constructed of non-corrosive polyethylene that won't dent, corrode or rust
- Three quick disconnect spray jets allow for simple maintenance
- Automatic float shutoff prevents damage to the vacuum motor
- Helical brush design provides constant floor contact for better cleaning
- Stainless steel solution strainer filters out damaging particulates before they reach the pump
- Heavy Duty Viton™ seals, impervious to "new generation" chemicals

Safety

- Heavy duty 14-3 jacketed power cord
- Moisture resistant switches
- Non conductive operator control console
- Hospital grade plugs that meet all health care compliance regulations

Markets

- Hospitality
- Institutional
- Industrial
- Health Care
- Retail

Accessories/Options

- Optional accessory tools for cleaning upholstery, stairways, underneath furniture and against walls
- Optional 100psi pump
- Motorized extraction tool

General Overview

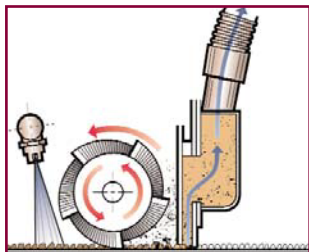

- The Ambassador sprays cleaning solution, a brush agitates and deep cleans the carpet and a heavy duty vacuum picks up the water all in one pass
- 14" or 17" models available
- 14" models have large 6 gal. solution and recovery tanks
- 17" models have large 7 gal. solution and recovery tanks

Productivity

- Cleans up to 2,500 square feet per hour
- Available in 2 sizes to meet all of your cleaning needs
- Removable recovery tank has convenient drain port that saves time and empties easily

Ease of Use

- Operator-friendly control panel features independent switches allowing individual control vacuum, brush, pump and accessory pump, and a main power that switch turns on and off all functions simultaneously
- 3 way solution control switch allows operator to put down water manually or continuously

Three spray jets force solution into carpet; independently powered brush deep cleans; and powerful vacuum picks up all the dirty solution to leave carpet clean and virtually dry.
