Aluminum 2-piece wand

BPV PRO BACKPACK VACUUM SERIES

Manufactured with
Pride in the U.S.A.

BPV Pro Series Features & Specifications

Tapered VS. Cylindrical

With three innovative design advances, the BPV Pro has increased airflow, increased efficiency and has created the quietest vacuum in its class.

1. Increased Airflow: the BPV Pro's deflector plate holds heavy debris away from the motor filter during use. It prevents the cloth bag from contacting the motor filter and reducing airflow.
2. Excellent Design: by tapering the vacuum body 3/4" per side, it prevents a bulging bag from contacting the body, allowing airflow around the bag.
3. Most Quiet in its Category: by adding 70 square inches of sound dampening waffle foam material, the BPV Pro is the quietest backpack vacuum available!

Key Features:

- Fastest soil pick-up with high CFM airflow, making the BPV Pro significantly more proficient than traditional uprights
- Collects the most soils, leaving exhaust air cleaner with a disposable, heavy-duty paper micro-bag mounted inside a washable cloth shakeout bag
- Lightweight ergonomic design, with a cushioned back-pad that fits the curve of any operator's back. The comfortable shoulder and waist belt design reduces fatigue, making work easier
- 2 Lever-style latches lock the lid to the body and a static-dissipating vacuum hose securely threads into the backpack's lid, allowing for right- and left-handed vacuuming. The interchangeable lid converts the BPV Pro into a powerful blower
- Easy-to-reach On/Off power switch, quiet motor and 50-foot long safety power cord
- 5-piece tool kit included on select models

Model	BPV PRO	BPV PRO HEPA
Capacity	10 Quarts	10 Quarts
Airflow	150 CFM	150 CFM
Power	1340 Watts	1340 Watts
Motor	1.5 HP, Single-Stage	1.5 HP, Single-Stage
