COLOR-CODED ACCESSORIES

PORTABLE INDUSTRIAL VACUUM SOLUTIONS

- Cleaning production lines and machinery
- Safe and effective hot oven cleaning, even burning residues
- Fixed suction units for direct extraction on production machinery
- Trim extractor to collect light, bulky, production scraps from packaging and other machinery

CENTRALIZED VACUUM SYSTEMS

- To suction material from different areas of the same plant, even over long distances and simultaneously
- Easy disposal and recovery of the material
Improve productivity and safety for workers

PNEUMATIC CONVEYORS

- To transport powders, solids or granular material within the production plant
- Avoids product dispersion, alteration, demixing and risks of contamination
- Guarantees safe working environments

DUST COLLECTORS

- High airflow to extract airborne dust and light particles
- Fixed or mobile application
- Extraction arm and HEPA filter available

ACCESSORIES FOR EVERY NEED

- FDA certified, color-coded accessories to identify separate zones and avoid cross-contamination
- High spot cleaning with extensions
- Antistatic accessories
- Autoclavable accessories
