60 INCH SWEEPING PATH**

**CLEANING PERFORMANCE
UP TO 150,000 FT²/HR**

**SWEEP & SCRUB INDEPENDENTLY
OR SIMULTANEOUSLY**

Ergonomic workplace
with height-adjustable steering wheel

105 Gallon solution
and recovery tank

X-AC front and rear drive
(optional)

Area performance up to 150,000 ft²/h

Low-dust
sweeping

The new PowerBoss Scrubmaster B400-RH battery-powered rider sweeper/scrubber guarantees hours of uninterrupted working and a high area performance thanks to the 105 gallon solution and recovery tank and the maximized battery capacity provided by the optional battery changing system. Equipped with a 3-disc-brush unit making a scrubbing width of 48 inches. Sweeping capabilities reach 60 inches! It also comes with many extras as standard, as well as PowerBoss-specific features such as the on-board dosing system & the ergonomic back-friendly design for the workplace.

From the flexi-wall tank with a two-stage filter system for coarse dirt and fine particles to the fully integrated space-saving dirt hopper, the new Scrubmaster B400-RH Series has been designed with attention to every detail. Each Scrubmaster can be individually configured to ensure that you always have the right machine at hand for your individual cleaning tasks with optimised original accessories that provide more efficiency, environmental protection and occupational safety for perfectly hygienic cleaning results. The PowerBoss Scrubmaster B400-R Series is ready for anything you throw at it.

intuitive operation

105 Gallon solution and
recovery tank

5.3 cu ft dirt hopper

Pre-sweep unit

Collision-proof frame

Side broom with
DustStop (option)

48" scrubbing path
60" sweeping path

Fold-up squeegee facil-
itates daily maintenance

TECHNICAL PERFECTION

From the flexi-wall tank with a two-stage filter system for coarse dirt and fine particles to the fully integrated, space-saving dirt hopper, the new Scrubmaster B400-RH has been designed with attention to every detail.

FEATURES AND BENEFITS AT A GLANCE:

- Coarse dirt flap to throw in litter, by hand
- DustStop for low-dust sweeping
- Automated high dump
- 5.3 cu ft dirt hopper

Special Features Designed with Attention to Detail

EVERYTHING AT A GLANCE

The clearly-arranged, easy-to-read operating panel with LCD display and reset button is self-explanatory and allows intuitive use. In addition, the one-button operating system starts all major cleaning functions at the push of a button.

POWERBOSS DUSTSTOP

The side brooms can be equipped with Hako DustStop, which reduces the development of dust and fine particulates during dry sweeping by up to 90% in comparison to conventional side brooms.

SELF-CLEANING SQUEEGEE

The squeegee can be rinsed automatically at the push of a button to increase hygiene and make daily servicing easier for the operator. In addition, the squeegee folds up to enable uncomplicated maintenance work.

VACUUM SWEEPER/SCRUBBER WITH HIGH DUMP

The Scubmaster B400 RH with high dump is the perfect choice for environments where a lot of coarse dirt regularly accumulates, for instance in production or exhibition halls. With its particularly high net dirt hopper volume, this vacuum sweeper and scrubber-drier combi machine provides sufficient capacity even for large amounts of coarse dirt. Larger pieces of debris can be picked up by hand and thrown into the hopper manually through the integrated coarse dirt flap.

POWERBOSS'S INNOVATIVE TECHNOLOGY contributes to reducing your operating costs, increasing economic efficiency and cleaning in a more eco-friendly manner.

- **POWERBOSS® AQUACONTROL:** saves up to 50 % of water, thanks to intelligent brush systems and our automatic water-stop function when the machine stands still.
- **POWERBOSS® ANTIBAC®:** Hygiene-sensitive areas place the highest demands on floor cleaning solutions. PowerBoss® meets these demands with PowerBoss® AntiBac®, which significantly reduces fungal and bacterial growth in the tank.
